height  
adjustment for  
effortless  
control

### KEY FEATURES

#### Features

- 300-Series stainless steel construction
- 460 kg per square inch hydraulic system
- 220V / 3 Phase Motor / 60 Hz optional 220 V single phase available
- Plug N Play design
- 30 square inch tenderization area at 60 cycles / minute
- 544 stainless steel blades sharpened in two direction for maximum efficiency
- Safe and easy to assemble blade set for enhanced safety and convenient cleaning
- Automatic height adjustment for effortless control
- Sliding board with safety guard and handle for easier handling of product
- Machine equipped with wheels for easy mobility
- Simple sanitation: no tools required to clean or inspect

Blade set conveniently pivots outward when disassembling to ensure quick, complete and easy sanitation

## TECHNICAL SPECIFICATIONS

Total Height (in)	63.00
Depth Machine (in)	19.29
Width Machine (in)	20.47
Weight (lbs)	253.53
Motor	230VAC, 3 Phase, 9.2A
Functioning	Hydraulic Piston
Blade Path	Set by Hydraulic Piston
Speed of Blade Unit	55 strokes per minute
Dimension of the board - Length (in)	31.50
Dimension of the board - Width (in)	11.8
Dimension of the board - Height (in)	10.24
Useful Surface (in)	27.56 x 11.8
Maximum thickness of pieces of meat to be tenderized (in)	4.72

## Who we are...

### Since 1962,

Jaccard<sup>®</sup> Corporation has been providing innovative and compelling products to the consumer retail, food service, and food processing markets. Jaccard Corporation founder, Swiss Master Butcher and industry icon, Andre Jaccard, knew that creating compelling and useful products that people wanted was the key to running a successful business. Today, Jaccard operates by these same principles – we are busy refining existing products and developing new ones with the same desire to provide our customers with the best possible solutions to their everyday needs.
